

Anne *Elefante*

KNOWLEDGE & SUPPORT SPECIALIST

EDMONTON, AB

LINKEDIN.COM/IN/CHRISTIANNE-ELEFANTE

Twice the founding support hire — built knowledge infrastructure from scratch at Showbie and Decisive Farming.

◆ EXPERIENCE

MAY 2021 – FEB
2026

B2B SaaS · agronomy
& farm management

Customer Experience Manager II

Decisive Farming (TELUS Agriculture)

- ◆ Led the customer-facing help centre from zero as a cross-functional initiative — built the project case, timeline, launch criteria, and maintenance plan; partnered with the CEO, Product, Design, and Client Success from kickoff through launch.
- ◆ Designed the knowledge base architecture end-to-end — information architecture, content hierarchy, taxonomy, and a style guide ensuring consistent documentation across the business.
- ◆ Owned the automated onboarding program in Intercom — scoped what to automate versus where human judgment added value, designed in-app product tours mapped to user roles, and secured director-level buy-in for a unified onboarding and help-centre hub.
- ◆ Set the voice-of-customer feedback loop with Product — translated support trends and ticket patterns into roadmap signal, content priorities, and knowledge base improvements.

2016 – 2021

EdTech · Showbie &
Socrative

Showbie

Edmonton, AB

- ◆ Founded the support function as Showbie's first dedicated support hire — designed ticketing workflows, support processes, and the user-facing help library from scratch as the K–12 user base scaled.
- ◆ Built the cross-functional model between Support, Product, and Sales — established the feedback channels the company used to turn user signal into product decisions.
- ◆ Returned as Customer Success Representative — designed and facilitated webinars for audiences from small district tech teams to entire school staffs, and delivered tailored educator onboarding.

◆ EDUCATION

2021

Master of Library and Information Studies (MLIS)

University of Alberta
